**Training:** ACO Technocrane, Gear Head & Handheld Workshops, Steadicam Gold, Emergency First Aid

Having a background in both engineering and digital stills photography, I have a great grasp of the technical side of filmmaking and how best to put the equipment available on set into practice to efficiently achieve meaningful shots that capture the emotion of the story. On set, I'm known for being very personable, professional and able to work creatively with others while keeping a level head and a sense of humour under the inevitable pressure. I am an Associate Member of the ACO.
